

# The Adventures of **Bruin Bear**

by Dan Fail

LAX

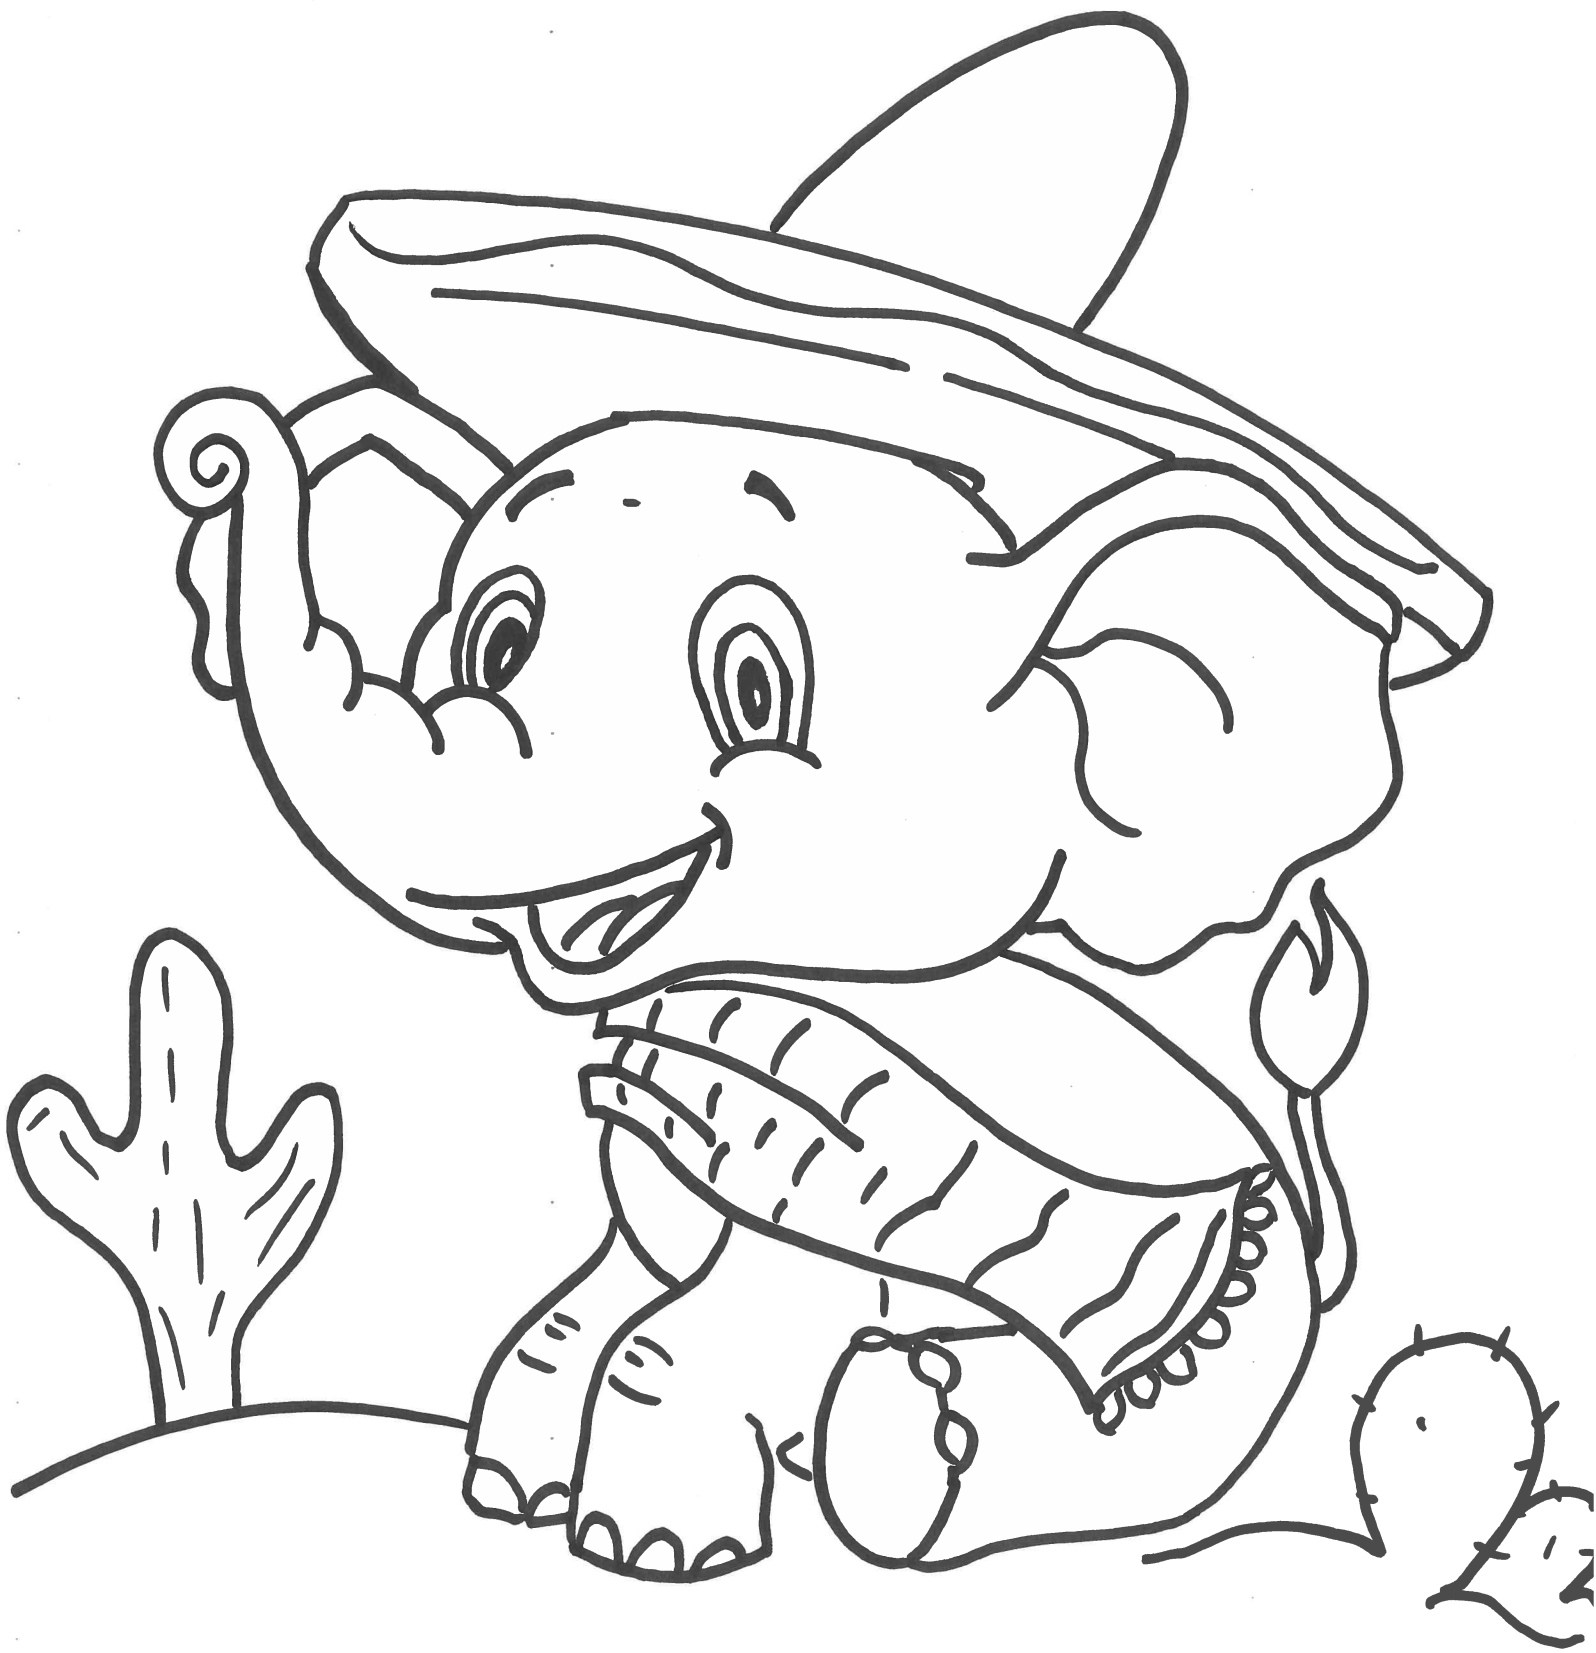

The adventure of a lifetime  
waited for Bruin Bear

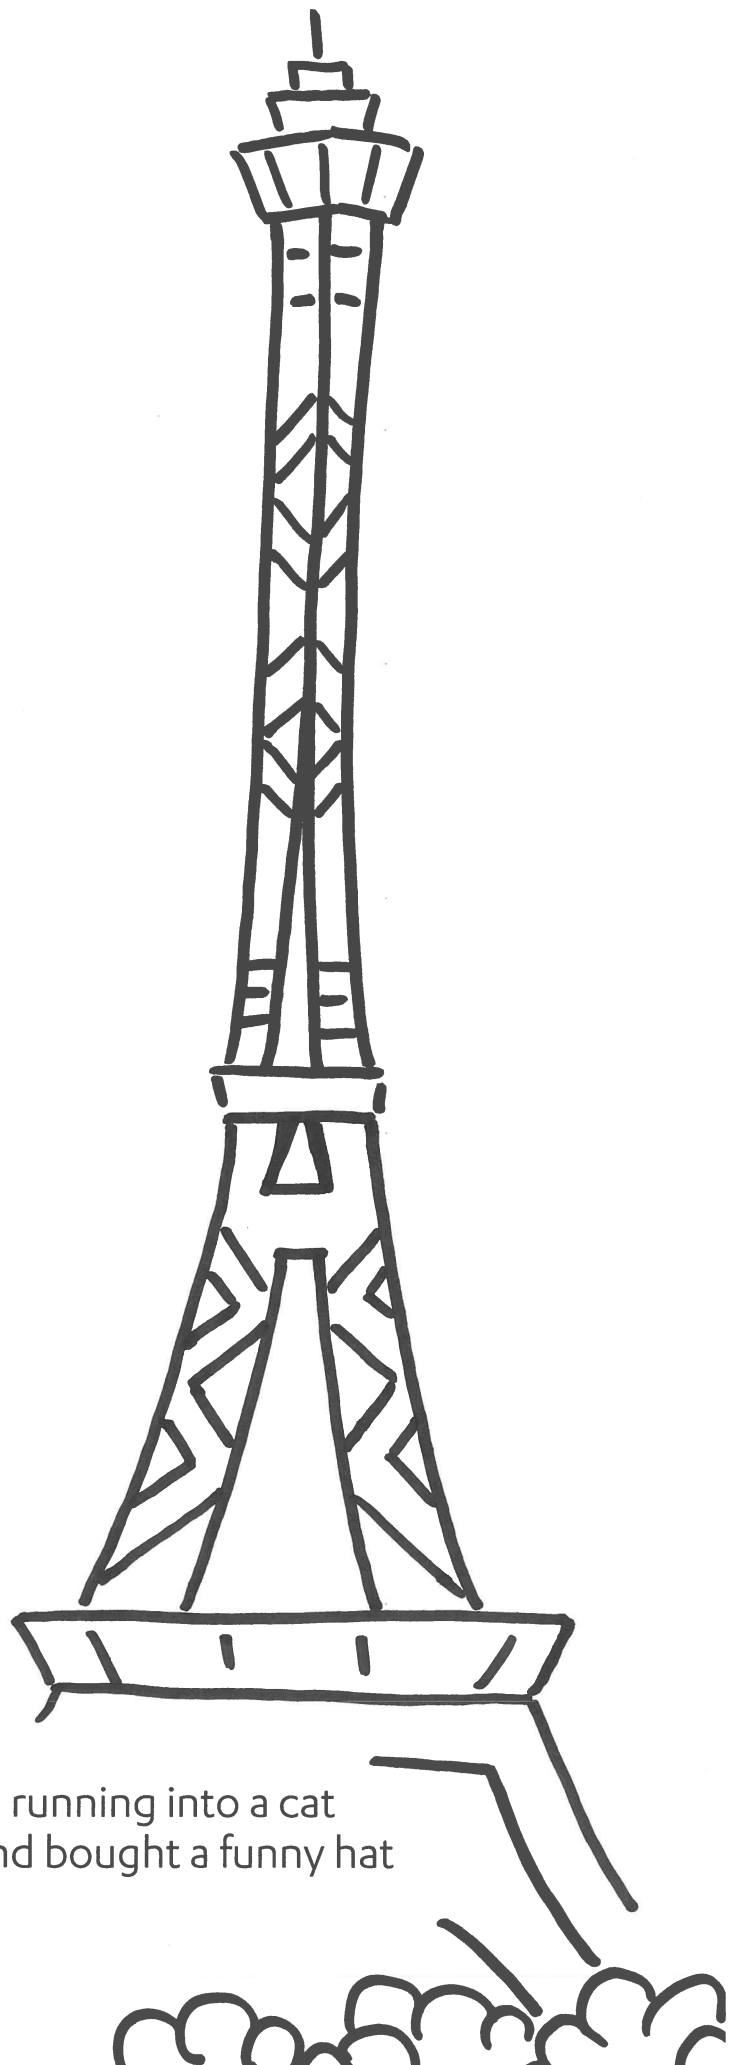

Setting off to the search the world  
finding friends everywhere

Staying close to home with our neighbors to the north,  
Bruin Bear found a helpful beaver waving a flag back and forth

Wanting warmer weather Bruin Bear knew just where to go  
and visited a friendly elephant down in Mexico

Bruin went to Paris next, running into a cat they saw the Eiffel Tower and bought a funny hat

Then climbing the Swiss Alps to get some fresh air  
and came across a cow who helped Bruin Bear

Flying next to London, and what a site to behold  
to see Big Ben, and a bird wearing blue and gold

Taking a gondola ride while seeing parts of Italy  
Bruin Bear found a horse, who was so friendly

In China was a panda, who was waiting with a smile  
so many friends in the Far East, they might just stay a while

More friends started to gather late into the night so they all did the 8-clap, that ends with "Fight, Fight, Fight!"

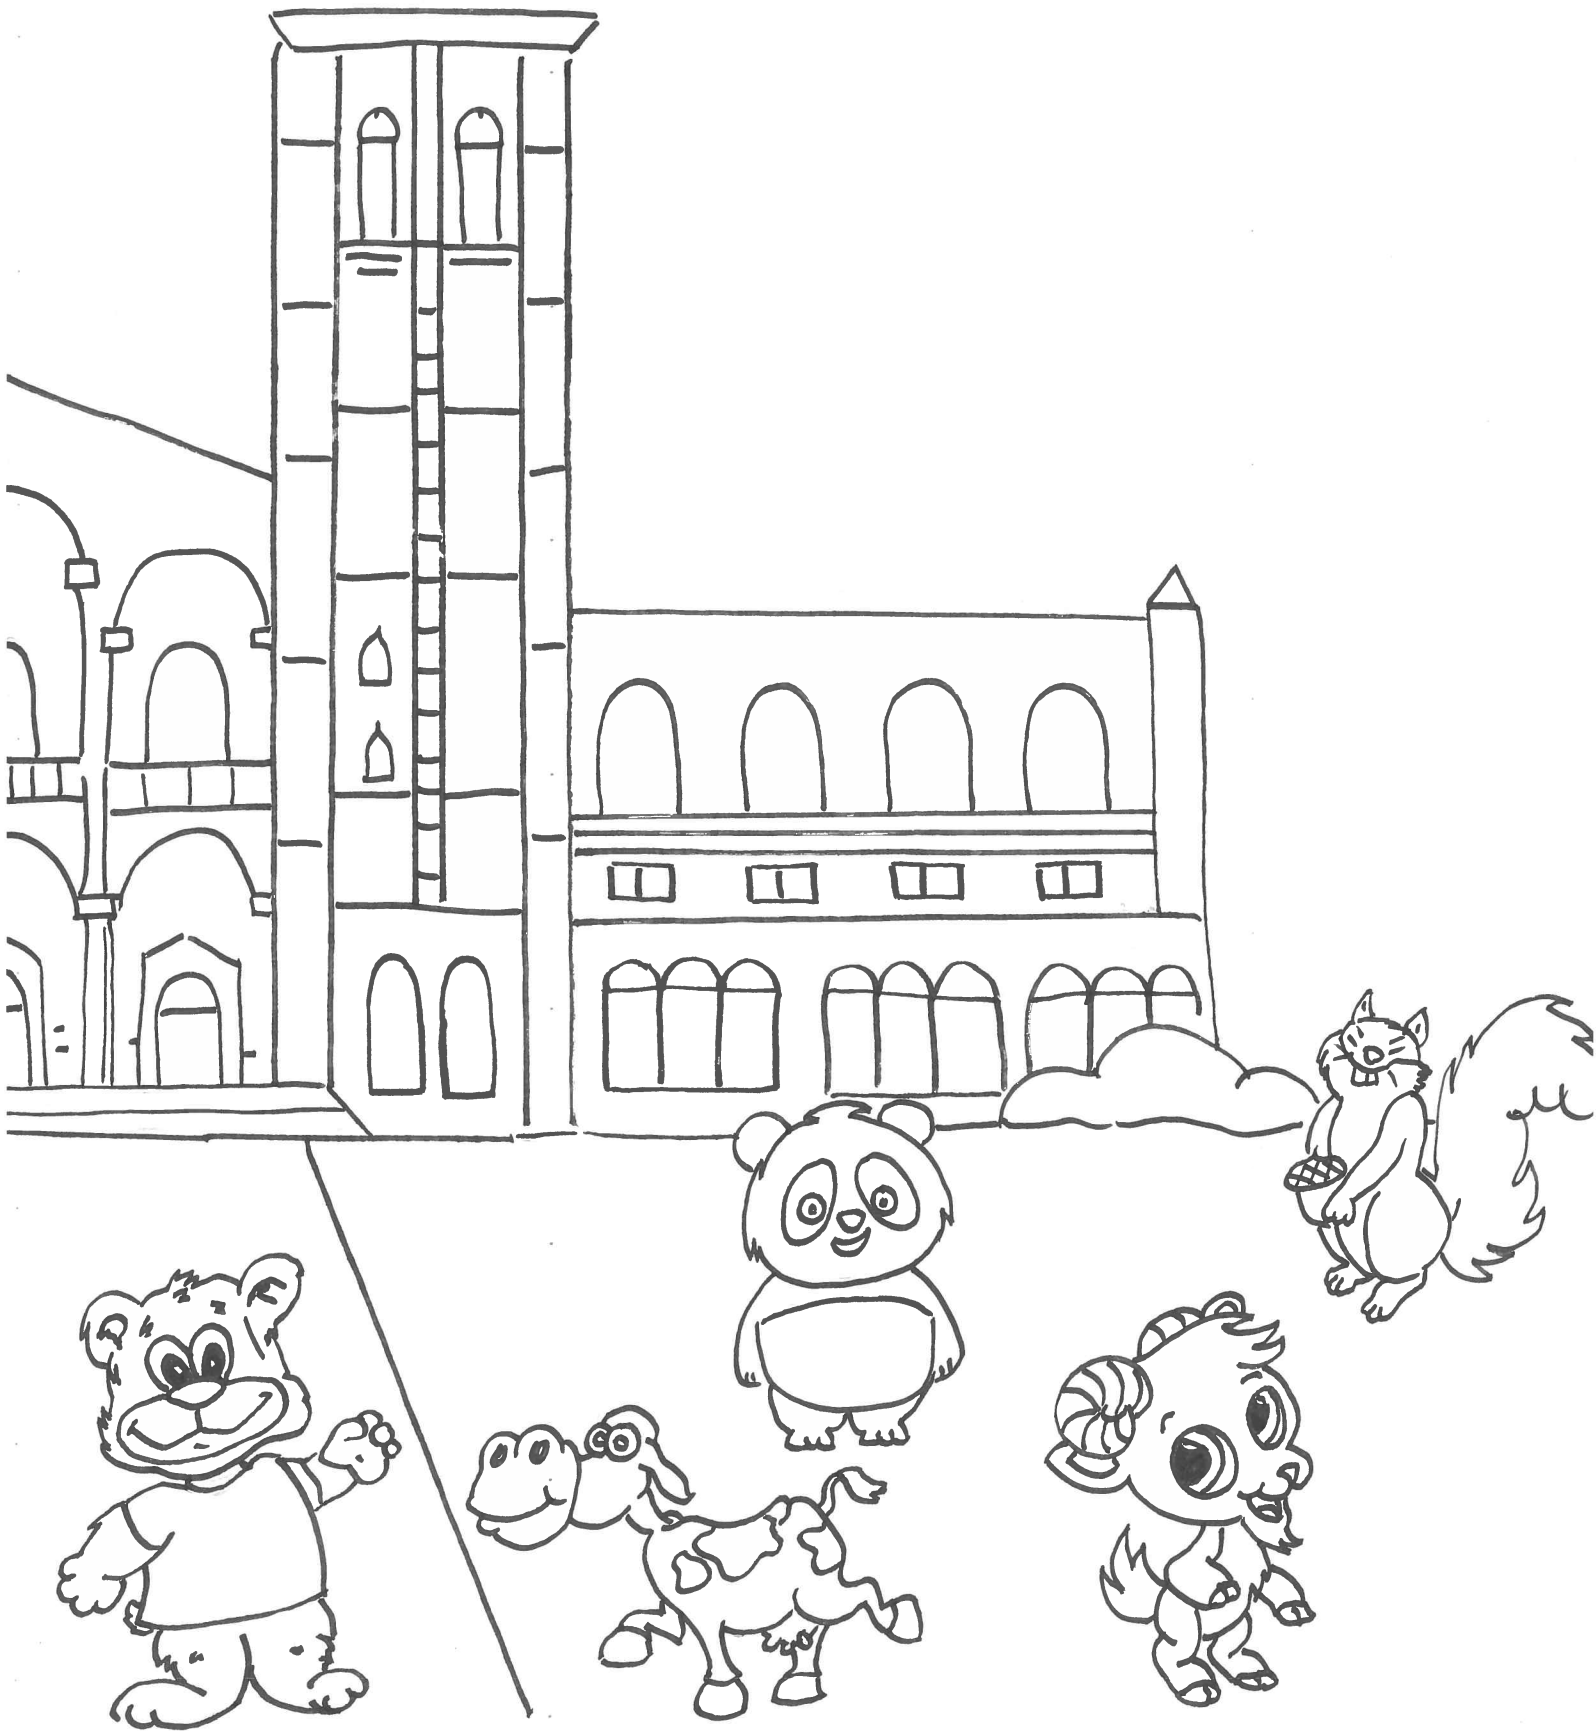

Bruin Bear found friends as far as the eye could see  
visiting a tiger at the Taj Mahal, before heading to New Dehli

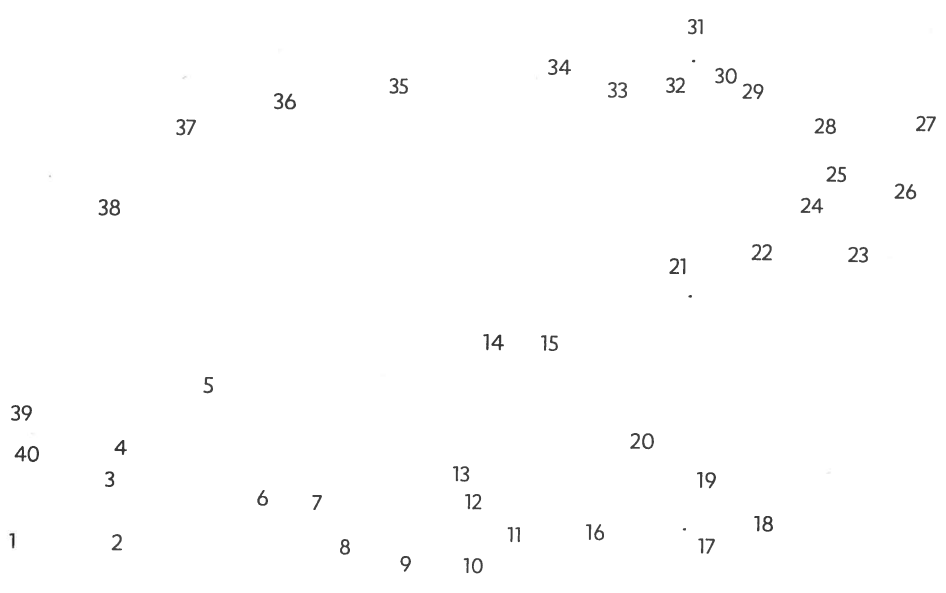

On Bruin Bear's return there was a stop to take  
traveling to little islands in the Aloha state

But their favorite place to be  
is in Westwood by the sea

And whether near or far away  
there's always UCLA
